

FIKER HABTAMU

Full Stack Web Developer

✉ danathabtamu@gmail.com 🔗 <https://www.linkedin.com/in/fiker-habtamu-15aa992b4/> 📍 Addis Ababa, Ethiopia

EDUCATION

Full-Stack Development

Evangadi

📅 04/2024 - 09/2024 📍 Maryland City, United States, online

- Full-stack development | Evangadi

EXPERIENCE

Front End Developer

CodeAlpha Infotech

📅 04/2025 - 05/2025

They give an internship for tech students, there internship program focuses on hands-on learning, where students work on live projects and gain practical skills while being guided by experienced mentors

Web Developer

Prodigy Info Tech

📅 11/2024 - 12/2024 📍 Remote

- I am gaining valuable experience from this internship, including time management, meeting project deadlines, and mastering the Git workflow, among many other skills.

PROJECTS

Personal portfolio website

🔗 <https://fiker23.netlify.app/>

A modern personal portfolio showcasing my skills, projects, and passion for full-stack development and creative web design.

Noli Hulu Gebeya

🔗 In development

Developed a responsive e-commerce website for a store, featuring product listings, a user-friendly interface, and seamless browsing experience.

Netflix-clone

🔗 <fiker-netflex-1.netlify.app/>

- The Netflix Clone replicates core features of a streaming platform, including dynamic content fetching, video previews, and responsive design. For this project, I used React along with styled-components to create an engaging UI.

Amazon-clone

🔗 <https://amazon-fiker.vercel.app/>

- I built an Amazon Clone using React and Node.js, featuring a fully functional shopping cart, product listings, and seamless user interactions, showcasing my full-stack development skills.

Evangadi forum

🔗 <evangadi-forum-fiker.netlify.app/login>

- I developed an Evangadi Forum Clone—a Q&A platform similar to Stack Overflow—using React, Node.js, and JSON Web Tokens (JWT) for secure user authentication and session management.

SUMMARY

Motivated full-stack web developer with advanced React.js expertise, skilled in building dynamic, responsive web applications. Strong problem-solver with a proven ability to adapt in fast-paced environments, lead teams, and deliver high-quality solutions from concept to deployment.

SKILLS

API	Bootstrap	CSS	Express.js
GitHub	HTML	JavaScript	
jQuery	MySQL	Node	
REACT.JS	REST API	Routing	
VS Code	Windows	XHTML	
jQuery	Database	MongoDB	
Tailwind	Python		

COURSES

Introduction to Front-End Development

HTML, CSS, and JavaScript for Web Developers

Programming with JavaScript

KEY ACHIEVEMENTS

- 🔹 Built and deployed 3+ responsive web applications using React, Node.js, and MySQL.
- 🔹 Created an e-commerce store with product listings, category filtering, and responsive design using Bootstrap and Tailwind CSS.
- 🔹 Developed a Q&A forum with JWT authentication and RESTful API integration, inspired by Stack Overflow.
